INTERIM GROUP
MANAGEMENT REPORT.

BUSINESS MODEL, GROUP STRUCTURE AND CORPORATE GOVERNANCE.

The statements made in the 2021 annual report regarding the business model, the group structure, the management system and the corporate governance practices still apply at the time of publication of this interim report with the exception of the acquisition of FIRST A.

BUSINESS DEVELOPMENT.

● CONSOLIDATED REVENUES AND RESULTS OF OPERATIONS.

Sales of prescription and non-prescription pharmaceuticals and pharmacy-related beauty and personal care products are subject to seasonal fluctuations, with demand for pharmaceuticals especially high during the first and fourth quarters of the year. However, in the past two years typical seasonal patterns have been distorted by the effect of the Covid19 pandemic.

Despite a weakening macroeconomic environment, SHOP APOTHEKE EUROPE continued to deliver a solid performance during the third quarter of this year. The company increased its group revenues during the first nine months of 2022 by 13.5% year-over-year to EUR 876.5 million. Sales in Q3 rose to EUR 284.5 million, up 19.5% compared to the same quarter last year (EUR 237.9 million).

The number of active customers grew to 8.9 million as of 30 September 2022, an increase of 1.6 million compared to the same date last year and of 0.3 million over the third quarter.

During the nine-month period, the number of orders increased by 20.4% compared to the corresponding period last year, reaching 17.1 million (9M 2021: 14.2 million), with the average basket size of EUR 58.10, down 6.2% from last year's EUR 61.98. This development is mainly driven by faster growth of non-Rx orders than Rx orders. However, the average basket size has shown signs of recovery over the past three quarters (Q1: EUR 56.79, Q2: EUR 57.94, Q3: EUR 59.77). The share of repeat orders was 85% for Q3 2022 after 83% in prior year's quarter (9M: 83% after 82%), while the return rate remained minimal at significantly less than 1%.

SHOP APOTHEKE EUROPE's continuously growing active customer base.

With a growth rate of 23%, gross profit at group level rose significantly faster than sales, from EUR 195.6 million during the first nine months of 2021 to EUR 240.6 million for the period under review. Compared to last year, the consolidated gross margin rose by 2.1 pp to 27.4% for the first nine months of the year. The gross profit margin also increased significantly in Q3, from 25% in last year to 28.1% this year. The increase was largely driven by improved pricing and product mix.

Adjusted selling and distribution (S&D) expenses were EUR 220.7 million for the first nine months of the year, or 25.2% of sales (9M 2021: 21.7%). This includes an impact of 0.3 pp resulting from the FIRST A acquisition. The adjusted consolidated S&D ratio for Q3 was at 24.2% (23.8% without FIRST A) compared to last year's 22.7%. The increase can largely be attributed due to higher marketing expenses and partly to the slowdown in consumer spending, which resulted in a lower average basket size. Furthermore, marketing efforts in 2021 - and consequently costs - were lower due to the full lockdown quarter Q1 2021 in Germany.

Administrative costs for the first nine months 2022 were EUR 48.3 million (previous year: EUR 30.5 million) and included one-off expenses and employee stock option expenses amounting to EUR 19.1 million (2021: EUR 6.5 million). The adjusted administrative cost ratio was 3.3% (3.2% without FIRST A), up 0.2 pp (0.1 pp without FIRST A) from 3.1% a year earlier. In Q3, the adjusted administrative cost ratio amounted to 3.5% (3.3% without FIRST A) compared to 3.2% in previous year's Q3.

Adjusted EBITDA was EUR -9.2 million compared to EUR 4.7 million for the first nine months of 2021, translating into an adjusted EBITDA margin of -1.0% after 0.6% in the corresponding period 2021. Including depreciation of EUR 28.6 million (previous year: EUR 18.4 million), EBIT was EUR -57.7 million (9M 2021: EUR -21.9 million). After net finance cost and income tax, the net result was EUR -67.9 million compared to EUR -31.7 million a year earlier.

Consolidated revenues (in € million)

Consolidated gross profit (in € million)

SEGMENT PERFORMANCE.

● DACH SEGMENT.

During the first nine months of 2022, DACH – SHOP APOTHEKE EUROPE’s largest segment by revenues, covering business activities in Germany, Austria and Switzerland – grew by 9.8% compared to the same period a year earlier. Revenues rose to EUR 679.1 million after EUR 618.3 million for the first nine months of 2021 although Rx sales decreased by 13.2% to EUR 95.8 million due to the impact of the Rx bonus ban in Germany. During the same period, gross earnings were up more than 22% year-over-year, from EUR 153.5 million to EUR 187.4 million. The gross margin rose by 2.8 pp to 27.6% compared to 24.8% last year. The adjusted EBITDA for the first nine months of 2022 was EUR 9.6 million compared to EUR 17.6 million during the same period of last year.

● INTERNATIONAL SEGMENT.

Sales for SHOP APOTHEKE EUROPE’s International Segment (Belgium, France, Italy and the Netherlands) grew considerably faster during the first nine months of 2022 – up 28.2% to EUR 197.4 million (previous year: EUR 154.0 million). Segment gross earnings rose by 49.6% – from EUR 42.1 million to EUR 53.2 million with a gross margin at 26.9% (last year: 27.4%). The adjusted EBITDA for the first nine months of 2022 stood at to EUR -18.9 million from EUR -13.0 million a year earlier.

ASSETS, LIABILITIES AND FINANCIAL POSITION.

● ASSETS AND LIABILITIES.

As of the reporting date, the balance sheet total was EUR 769 million after EUR 783.1 million at the end of the 2021 fiscal year. Within the non-current assets, intangible assets rose by EUR 50.2 million, driven by EUR 38 million due to investments in software development and the acquisition of First A. Current assets decreased by EUR 64.8 million from EUR 432.8 million to EUR 367.9 million. Inventories were down from EUR 96.6 million to EUR 78.5 million, largely due to the usual seasonality pattern. Cash and cash equivalents decreased from EUR 247.4 million to EUR 115.2 million, as EUR 80.9 million have been invested in securities and are shown in other financial assets which as of 30 September 2022 total to EUR 117.3 million.

Loans and borrowings within the non-current liabilities increased from EUR 230 million as per year end 2021 to EUR 267.2 million. Current liabilities amounted to EUR 127.1 million after EUR 124.1 million.

The equity capital ratio stood at 47 percent as of the reporting date.

● LIQUIDITY SITUATION.

Operational cash flow was EUR 0.3 million compared to EUR 28.4 million during the same period of fiscal year 2021. This development was substantially driven by the lower operating result and a less favourable development of working capital movements compared to last year's nine months period.

EUR -122.6 million was used for investing activities in the first nine months of 2022 (previous year: EUR -70.9 million). EUR 80.6 million of the investing cash flow concern an investment in securities, shown in other financial assets (previous year: divestment of EUR 2.4 million). Previous year's investment activities included the acquisitions of SMARTPATIENT and MEDAPP. Net of cash acquired, the cash outflow for these investments amounted to EUR -44.0 million against an outflow of EUR -6 million this year for the acquisition of FIRST A. EUR -7.6 million (9M 2021: EUR -8.6 million) were investments in property, plant and equipment.

Cash flow from financing activities shows an outflow of EUR -9.9 million vs. an inflow EUR 232.1 million last year. Last year's development was essentially driven by the issuance of new convertible bonds in January 2021 with a net cash inflow of EUR 222.2 million and a capital increase of EUR 10.7 was related to the employee stock option programme.

Overall, cash and cash equivalents decreased by EUR 164.8 million during the reporting period and amounted to EUR 115.2 million as of the balance sheet date. Including short-term financial assets (securities) it stood at EUR 232.5 million after EUR 316.4 million last year.

IMPORTANT EVENTS DURING THE REPORTING PERIOD.

● ACQUISITION OF "FIRST A", A PIONEERING QUICK-COMMERCE PLAYER IN THE GERMAN PHARMACY MARKET.

During the reporting period, SHOP APOTHEKE EUROPE entered into the growing q-commerce market through the acquisition of FIRST A. SHOP APOTHEKE EUROPE acquired 100% of the shares from the FIRST A founders but the company continued to operate separately. To keep the pace, all three founders and the current management team stayed on board continuing to lead and manage the growth of FIRST A.

EVENTS AFTER THE BALANCE SHEET DATE.

No events have occurred since September 30, 2022, which have a material impact on the company's consolidated financial statements.

FORECAST.

For the full year 2022, the Management Board of SHOP APOTHEKE EUROPE confirms the guidance for the ongoing business of sales growth of everything-but-Rx of 15 - 25%, and an adjusted EBITDA margin in the range of - 1.5% to 1.5%.

The newly acquired business of First A is expected to impact the operating result of 2022 by approximately -0.5% of sales.

Description of adjustment:

1. IFRS expenses of the employee stock option plans. These expenses are non-cash for Shop Apotheke Europe.

2a. One-off external project expenses specifically related to our new logistics center project "Venlo 2020".

2b. One-off external project expenses related to other projects. This mainly concerns external advisory costs.

3. Other major non-recurring one-offs. In 2022, this concerned the impact of contingent considerations to former owners of the acquired companies SmartPatient and MedApp. In the light of these acquisitions of 100% of the shares of SmartPatient and MedApp, the total purchase price for the shares which SHOP APOTHEKE EUROPE agreed upon with the selling shareholders amounts EUR 70,545 thousand and EUR 8,004 thousand respectively. Along with the acquisitions contingent considerations are provided to the former owners which contain a service condition. Payments in the form of cash and shares under this contingent consideration forfeit if employment is terminated. The total contingent consideration amounts to EUR 47,839 thousand. On the basis of an IFRIC decision on IFRS 3.B55 Business Combinations - the contingent part of this purchase price should be accounted for as consideration for post-combination services - employee expenses during the vesting period. The total impact of the recognition of the cash component and share component of the contingent considerations of both business combinations in the result of the first nine months of the year 2022 amounts to EUR 13.0 million. These costs are included in the employment expenses presented in the profit and loss statement under "administrative expenses". The P&L impact of this accounting method distorts the view on our underlying financial result of our business for management reporting purposes, which is the reason we adjust for it in the presented adjusted EBITDA. Reference is made to note 28 to the consolidated financial statements of the financial year 2021 for detailed explanation.
